

# **Committee on world Food Security October 2014**

**EFDAN, 1-2 June 2015, Brussels  
Isabelle VIALLON, DEVCI C1**

# HLPE report

*Importance of fish*

- *As source of nutritious food*
- *As source of revenues*

*Sustainability is a pre condition*

*But policies should go beyond  
fisheries management*

# Discussions at CFS

*Absence of Pacific and African countries*

*Discussions « polluted » by ideological positions*

*Areas of disagreement:*

- **Subsidies**
- **Aquaculture**
- **Trade**
- **Global Alliance for Climate Smart Agriculture**

# Recommendations

*Watered down r/ HLPE report*

*But:*

- **Called for giving to fish the position it deserves in food security and nutrition strategies, policies and programmes – *and vice-versa***
- **Highlighted the need to integrate food security and nutrition concerns into fisheries and aquaculture-related policies and programmes**
- **Showed that fisheries and aquaculture are linked to many other policies (cross-sectorial approach)**
